THE KENYA SCHOOL OF LAW

COURSE: MAINSTREAMING ESG PRACTISE IN PUBLIC SECTOR INSTITUTIONS

(3 LSK CPD POINTS)

DATE: 16th- 20th February, 2026

VENUE: Kenya School of Law Karen

ABOUT THE COURSE

In the Kenyan public sector, Environmental, Social, and Governance (ESG) is no longer an elective "corporate social responsibility" initiative. It is a fundamental legal requirement anchored in the Constitution of Kenya 2010, the *Mwongozo* Code, the Climate Change Act and the Environment Management and Coordination Act. ESG is now a key consideration, not only for public entities, publicly listed entities, private companies, but it is a necessity for any firm or organization to contribute to global sustainability efforts. ESG builds on the already firm foundation of sustainable development, championed by the United Nations.

This introductory course is designed for legal professionals in seeking to understand the rapidly growing field of ESG and its implications for legal practice. As businesses and investors increasingly prioritize sustainability and ethical considerations, a strong grasp of ESG principles, frameworks, reporting obligations, due diligence, and risk assessment is becoming indispensable for lawyers advising clients across all sectors.

This course will provide a comprehensive overview of the ESG landscape, equipping participants with the foundational knowledge and practical insights needed to navigate this evolving area of law.

COURSE CONTENT

The course will introduce to the participants the foundational legal and regulatory framework for public sector ESG. Participants will also learn ESG due diligence especially in PPPs and procurement, risk assessment and reporting obligations under the legal framework.

INTENDED OUTCOMES

By the end of the course, participants will gain an understanding of the key local and international drivers shaping ESG, the relevant legal and regulatory frameworks in Kenya, and the lawyer's crucial role in guiding organizations towards sustainable and responsible practices.
