ABOUT THE COURSE

Conceptualizing and Implementing Public Private Partnerships is a course that is designed, developed and delivered by the Kenya School of Law with the valuable input of KO Associates LLP, a premier regional law firm with offices in Nairobi, Kampala and Kigali with an established Public Private Partnerships law practice in Projects, Energy and Infrastructure. This course on legal and technical aspects of Public Private Partnerships provides an in-depth understanding of the key legal, strategic and compliance issues of PPPs in Kenya and globally over a period of five (5) days. It is ideal for Public entities' senior management (in both National Government and Counties), regional development bodies, investors and their advisors, advocates (in-house and external), procurement officers, private equity firms, commercial lenders and other project financiers. The course provides a clear and up to date overview of the PPP process and equips the participant with knowledge and skills on what it takes to determine whether a PPP project fits a particular organizational strategy or government development planning. The entire PPP process is discussed in detail, the financial aspects analysed, tax implications and the regulatory issues explored. Targeted use of real-life case studies and presentations by selected regulators spice the learning experience. It is expected that those who take this course should leave ready to advise on, or oversee, the various aspects of a PPP process in Kenya.
